TIVE FROM JUSTICE.

New York, June 22.-Twenty-four companies manufacturing manila wrap-

ies composed almost the entire membership of the circle of paper manufactu-rers which was organized by John H. Parks in 1906. On complaint of Mr. Norris the federal grand jury began an investigation of the combination two months ago and on Friday last returned indictments against Parks and twentyfive companies. District Attorney Stimson, who had charge of the cases, stated in court that in view of the fact that the companies had saved the government expense by pleading guilty, he was willing that light fines should be imposed. Counsel for the companies de-clared that the combine was formed two years ago to save them from bankruptcy, because of the methods of agents for consumers, who, he alleged favored first one group of paper mills and then another in order to cut prices Counsel also declared that the combination was not dissolved when it was learned that the association came un-der the provisions of the Sherman law.
